

# Another Well Rig

Mr. W. N. Harris, of the Winterwood ranch, reports that the big well rig purchased for the ranch has arrived. Work will begin drilling wells just as soon as the rig can be set up and placed on the ground where desired. The rig is a heavy one and will be able to make the Winterwood ranch resemble a sieve during the next few months. The first well will be located about a half mile south west of what is known as the Frenchman's well.
